Subject: hunt

Wes,

Life has slowed back down here enough for me to take a minute to send you a message. We thoroughly enjoyed our hunt and appreciate everything you did. Your effort to go the extra mile, move us and get us into deer did not go unnoticed or unappreciated. Just so you know, Miles worked his tail off for 4 days and did everything possible to get 2 rednecks within gun range (more than once). I am sure you know he is VERY good at what he does. We will hunt with you again in the near future. I wish you luck in all your endeavors. Elk with a rifle on the split rock???? Thanks, bp
